Summary

Full-Stack Web Developer with a proven track record of delivering production-ready, highly responsive websites for commercial clients. Dedicated to transforming business concepts into high-performance landing pages and custom web applications designed to drive user engagement, capture high-quality leads, and seamlessly convert website traffic into direct customer inquiries.

Experience

Freelancer

Budapest, Hungary

Web Developer

2026-

Design and engineer high-converting landing pages and custom web applications tailored to unique client business goals. Collaborate directly with commercial clients to translate business logic into production-ready digital solutions.

Projects

Premep Klíma

2026

Developed a specialized, high-converting service landing page designed to market Premep's air conditioning services. Integrated customer testimonial modules and structured project-process showcases to build immediate brand authority, paired with a streamlined contact form optimized to capture and fast-track direct inbound leads.
